Policy objectives			
Application to Council to use a portion of a road reserve can be approved by Council as a Consent under Section 138 of the Roads Act 1993. Such applications do not require the consent of the Minister. Consents are issued on an ongoing basis, and Council may terminate the consent at any time and for any purpose. Council can only grant consent to use a portion of a road reserve to an adjoining property owner. This policy sets out the methodology that Council will adopt in calculating the annual charge for use of Council road reserves, as well as providing a mechanism for annual review of the charge.
