

# Swap for Good

## School Canteen Action Plan Straws

Make the swap and wipe out single-use plastics on the Northern Beaches.  
Follow these steps to eliminate **plastic straws** in your school canteen.

Actions steps	By who?	Due date	Done
1. Purchase small box of non-plastic or reusable straws for a trial.			
2. Communicate with school principal, staff and P&C etc.			
3. Communicate the change with school community, canteen staff and volunteers i.e. shift briefing, newsletters, display posters etc.  Get your student/teacher eco champions on board!  Ask us for the Behaviour Change Guide and poster template for your school.			
4. Remove straws from counter top and only offer on request (i.e. medical reasons).			
5. Purchase non-plastic straws for ongoing use if required.			
6. Celebrate with your school community.			
7. Get in touch. We'd love to hear how you went.
