**Record Number:** 2021/591000

---

Item 10.2 on the agenda for the 24 August 2021 Council Meeting is the Outcome of Public Exhibition of the Draft Social Sustainability Policy and Strategy.

It has been identified that the Strategy (Attachment 1 to the Council report) needs to be amended prior to its consideration by Council.

This amendment corrects a 2041 forecast population figure for the Northern Beaches on page 18 of the Strategy.

The population forecast for 2041 in the distributed Council papers is **308,895**, the amended and accurate figure is **312,503**, as shown in Attachment 1 of this memo. The figure is included for demographic context and shows how the population is forecast to increase over the life of the Strategy.

This amendment has no material impact on the Strategy.

A copy of the amended page of the Draft Social Sustainability Strategy is attached.
