Dear Councillors,

I refer to the above-mentioned agenda item. It has come to our attention that the weblink in the Council meeting agenda to the redacted verbatim submissions is not working.

The attachment booklet has been updated to direct people to Council's Your Say page where the verbatim submissions can be viewed [here](#).

A message has been sent to all persons who have registered an interest in this project to provide them with the link to the submissions.

Should you require any further information about matters raised in this memo please contact my office on 8495 6273.
