

Attachment 8 - Proposed new fees – for exhibition

Meals on Wheels

As additional Commonwealth Home Care Packages are released, more clients of the Meals on Wheels Service will become eligible and be able to access a package. Home Care Packages allow recipients to purchase the services and supports that they need.

In the case of the Meals on Wheels service, the package charged through a third-party provider, will cover the majority of the meal costs with the client paying a small fee per item.

Council needs to adopt two additional sets of fees to accommodate this different pricing structure and anticipated growing service utilisation.
