What is Driveway Delineation?

Driveway delineation lines are lines installed by Council beside a driveway on the road pavement to define the edges of the driveway. They are for residential, commercial and industrial properties to assist in keeping the driveway unobstructed to the property. This can be particularly useful in areas with limited road width and high on-street parking demand.

About this Application Form:

- The application will not be considered for assessment until the required fees have been paid.
- Application fee is non-refundable if the application is not approved.
- Failure to provide the required information may result in the application not considered for assessment and not approved.
- The processing time for the application is a minimum of 20 working days excluding weekends and public holidays.
- Driveway delineation lines are not a recognised traffic facility and therefore they cannot be enforced under the Australian Road Rules if they are encroached. However, it is illegal for a vehicle to be partially or completely obstructing a driveway and consequently such vehicles can be infringed by the Police or Council's Compliance Officers.
- Properties where vehicular access is on a State or Regional Road are not eligible to apply. Please refer to Part 4: Conditions for a list of State and Regional Roads in the Northern Beaches Local Government Area.

Part 6: Conditions

1. Permit specifications

Driveway delineation lines are offered to properties where vehicular access is situated at a Council road (not including Regional Roads). Properties where vehicular access is on a private road, regional road or a classified main road (State Road) are not eligible to apply. A list of State Roads and Regional Roads is listed below.

Driveway delineation lines will be the same used to delineate on-street parallel car parking spaces marked in accordance with Australian Standards. The lines will be L-shaped and extend a maximum of 2.1 metres from the face of the kerb into the carriageway.

Driveway delineation lines will generally be positioned at the point where the driveway wing meets the kerb. The lines may be installed up to a maximum of 1 metre on either side of the gutter crossing but only for driveways that are under 4 metres in width. The location of the lines will be at the discretion of the assessing officer.

Each application for driveway delineation lines is subject to approval from Council. Driveway lines will not be relocated once installed except under special circumstances.

Driveway delineation lines are not a recognised traffic facility and therefore cannot be enforced under the Australian Road Rules if they are encroached. However, it is illegal for a vehicle to be partially or completely obstructing a driveway and consequently, such vehicles can be infringed by the Police or Council's Compliance Officers.

Council will not be responsible for the maintenance of driveway delineation lines. Should these lines be required to be remarked, another application including the relevant fees must be submitted to Council
